

# JAPS LOST A WHOLE FLEET

Rumor States Their Loss Four Boats and Russians Two, in Recent Battle.

## THE RUSSIANS ALSO AMBUSCADED

Mikado's Troops Play the Czar's Trick on the Russian Army—Eight Hundred Reported Killed or Wounded.

[Special by Scripps-Mellae.]  
St. Petersburg, June 12.—It is reported in naval circles this morning that a fierce naval battle has taken place off the entrance to Port Arthur harbor, in which the Russian battleship Retvizan and the cruiser Bayan were so badly damaged that they had to be beached to prevent their sinking.

The Japanese are reported to have lost four ships during the encounter, but whether they were sunk or simply so badly damaged that they were compelled to withdraw is not known. Japs Attack in Early Morning.  
According to the report, the Japanese made an attack under cover of darkness in the early morning of Sunday and again attempted to sink merchantmen in the harbor to block the entrance. They were discovered and the shore batteries opened on them. The escorting Japanese squadron retreated and poured a hot fire on the forts.

Try to Cut Off the Russians.  
Several Russian torpedo boats sailed forth and sank a steamer which was close in shore and headed directly for the harbor entrance. Two Japanese cruisers attempted to cut the Russian torpedo craft off and the entire Russian squadron made a sortie and attacked the Japanese. A battle followed in which some of the ships came so close together that their big gun batteries were practically useless. Finally the Japanese squadron, seeing that it was impossible to accomplish its purpose, drew off, and the remnants of the Russian fleet retired into the harbor.

Damage to Ships Serious.  
According to the report the damage to the Retvizan and Bayan is extremely serious. This is considered very unfortunate at this time, as the battleship had just been repaired and placed in commission after being disabled since the commencement of hostilities.

However, the fact that the Japanese lost four vessels, at least two of which are supposed to have been battleships, indicated that the Russian gunners have recovered their nerve and can be depended upon to give a good account of themselves in future naval fights.

Credence is Given Report.  
While the report of the fight is current, both at the Navy Department and at the Service Club, none of the officers there would state what the source of the report was. Diligent effort was made to secure confirmation but in every case without success.

The circumstantial detail with which the rumor is clothed indicates, however that there may be a great deal of truth in it, inasmuch as the names of the two Russian vessels disabled are given.

Another Ambuscade.  
New Chwang, June 12.—It is reported the Russians suffered a severe defeat as the result of an ambush at Pullen Tien to the rear of Port Arthur. The Japanese attacked the Russians and they drew the latter on by feigned retreat. The Russians were trapped and are said to have lost 8,000 killed wounded. The Czar's troops have fallen back on Kail Chow.

Send More Troops.  
Rome, June 12.—A dispatch from Seoul states that twenty thousand men have been sent to reinforce General Kuroki who thought at Feng Huang Cheng has pushed his advance guards among the hills. These forces are as far as Motten Ling pass where on Saturday they encountered

the forces of the Russians who withdrew leaving an officer and six soldiers dead. The Japanese loss is an officer and three men. Kuroki's plan seems to be to deliver an attack on Liao Yang simultaneously from east and south.

Six Warships Are Destroyed.  
St. Petersburg, June 12.—Rumors are in circulation to the effect that a great naval battle has taken place off Port Arthur, in which two Russian and four Japanese battleships were sunk. No confirmation of the rumor can be obtained.

Japanese Are Ambushed.  
Hail-Cheng, Manchuria, June 12.—A flanking movement of the Japanese around the Russian left from Feng-Wang-Cheng June 9 was repulsed with a loss of two whole battalions.

A large Japanese force moved out in the morning along the Feng-Wang-Cheng and Hail-Cheng road. The Russians had a force strongly posted in a ravine thirty miles southeast of Hail-Cheng. The Japanese were preceded by two battalions that walked into the Russian ambush. They received a murderous rifle and artillery fire at close range and were wiped out, only one or two escaped.

The main Japanese force, which was greatly superior to the Russian force, tried to outflank the Russians, who drew off without losing a man. The Japanese, closing in, found the ravine vacant save for their own dead.

Ships Rout Military Train.  
Tokio, June 12.—Rear Admiral Togo reports that a part of the fleet bombarded the west coast of the Liao-Tung peninsula near Kail-Chan Tuesday and drove back a military train that was approaching southward. No trains have been seen since.

The enemy was driving in troops and throwing up works evidently expecting a landing of the Japanese on that point and making all preparations to prevent it.

Small gunboats sent close in by Rear Admiral Togo bombarded the Russians at work and it is believed caused considerable damage.

John Vladivostok Fleet.  
St. Petersburg, June 12.—Relief is felt in military circles at the removal of discussions in military councils. It is understood that the sole responsibility devolves on Gen. Kourapatkin and that no serious attempt will be made to relieve Port Arthur.

It is reported that the Vladivostok squadron now consist of three cruisers and four ironclads. It is therefore presumed that the squadron has effected a junction with some of the Port Arthur vessels. The newspapers report that there is great distress in Vladivostok arising from the enhanced prices of food and it is feared that the stock of petroleum and candles is giving out.

Damage Vladivostok Fleet.  
London, June 12.—A correspondent at St. Petersburg says he hears that a telegram from Vice Admiral Skrydloff announces that he went within thirty miles of Port Arthur with the Vladivostok fleet and they ran into a fog. He found several Japanese torpedo boats and two battleships, which attacked him fiercely and inflicted some damage. The Russians returned the fire, but as none of the Port Arthur ships appeared Vice Admiral Skrydloff returned to Vladivostok, where he arrived Friday morning.

## MORE MASSACRES UP IN ARMENIA

Sultan Has Passed Strange Order Regarding the settlement of Dismantled Villages.

[Special by Scripps-Mellae.]  
Constantinople, June 12.—The Armenian patriarchs have received information to the effect an order issued by the sultan prohibiting Armenians settling in villages destroyed, and only in places indicated by the sultan has led to the recent massacre. It is said two days have been devoted to massacres, May 16 and June 2. These days fifteen villages were destroyed in the district of Chetass and twenty-two districts of Rian. Of the population of 5,000, 2,000 were massacred. Outrages are feared in other places.

Douglas M. Smith, formerly teller of the National Tradesmen's bank, New Haven, Conn., who was arrested on the charge of embezzlement of \$50,000 from the bank, waived examination and was held for trial under bonds of \$15,000.

## JANESVILLE MECCA FOR TOURING CARS

Visitors From Beloit and Delavan Spent Several Hours in City Sunday Afternoon and Evening.

Three large touring cars came in to port at the New Myers hotel yesterday afternoon. A. Aldrich and party of seven from Beloit arrived about two large machines and Mr. and Mrs. H. W. Weed, Miss Winston, Miss Vicus, and L. L. Littlefield, all of Delavan, came on the third. The visitors took supper at the hotel and started on the return trip shortly before eight o'clock.

## INDICTMENT FOR NAN PATTERSON

Actress With "Caesar" Young Shot in a New York Cab Is Held by Jury.

[Special by Scripps-Mellae.]  
New York, June 12.—The grand jury this morning found an indictment of murder in the first degree against Nan Patterson, the actress with "Caesar" Young, a book-maker at the time he was shot in the hand on Broadway a week ago Saturday.

DAVID B.—A FEW POSES LIKE THAT OUGHT TO GET YOU THE SUPPORT OF THE FARMER'S JUDGE. (AN APPEAL IS BEING MADE TO THE FARMERS IN PARKER'S BEHALF, THAT HE IS A GENUINE FARMER, NOT A PLAY-FARMER.—NEWS ITEM.)

## DEPARTMENT HAS DEFINITE WORD

Admiral Chadwick Cables Navy Department About the Sultan's Mission to Hailu.

[Special by Scripps-Mellae.]  
Washington, June 12.—Rear Admiral Chadwick cables the navy department from Tangiers the mission to Hailu left June 12th, carrying the sultan's answer to the demand of the brigand as a condition precedent to the release of Perdicaris.

## COLORADO IS NOW QUIET ONCE MORE

General Bell Says He Expects To Withdraw the Troops This Week.

[Special by Scripps-Mellae.]  
Cripple Creek, Col., June 12.—The situation of the district is normal this morning. The authorities expect no further trouble. Another batch of unionists are to be deported tomorrow. This will end the work of driving men from the district. The troops will probably be withdrawn this week. Nearly all the mines which closed after the independence explosion began operations this morning. The mines which were manned by union miners will not be allowed to resume unless they employ non-unionists. Gen. Bell in a statement says the recent troubles are due to the socialist element in the miners' federation.

## MRS. W. S. BOWEN'S NARROW ESCAPE

Former Janesville Resident Nearly Drowned at Sioux Falls While Rowing.

The Sioux Falls, Dakota, Press of June 7th gives an account of a narrow escape from drowning of a party of Sioux Falls people among whom was Mrs. W. S. Bowen, whose husband at one time was city editor of the Gazette and who is now an editor of the Sioux Falls Press. Mrs. Bowen and her friends were in a row boat when two of the party started to change seats. This caused the boat and the entire party were thrown into the water. The gentleman of the party made the ladies hold to the bottom of the boat while he pushed it towards the shore. Mrs. Bowen was almost unconscious from strangulation and exhaustion and was rescued with much trouble by her son who was in another boat.

## LITTLE TOT HAD NARROW ESCAPE

Struck by Fender of the Intreurban Car—Was Not Injured at All.

Sunday afternoon a little tot living near the Huganin farm near Yost's park wandered onto the interurban car track and in front of one of the company's cars. She was struck by the fender and thrown into it. She was not injured beyond a few scratches. The car was immediately stopped and the little one taken to her home. She was about four years old and the motorman did not see her until the car was almost on top of her.

## FIVE PERSONS DROWN IN VESSEL COLLISION

Canadian Steamers Come Together Near Sorel and Over 100 Lives Are Imperiled.

Montreal, Que., June 12.—Five lives were lost and more than 100 persons were in peril as a result of a collision at dawn Sunday morning between the Richelieu and Ontario company's steamer Canada and the Dominion Coal company's collier Cape Breton, near Sorel. Following the crash of the vessels many of the Canada's passengers jumped into the water, but were rescued by boats from the collier. Twenty minutes after the collision the Canada went down.

First reports of the disaster received here caused great excitement, as they placed the loss of life at more than 100. At the time of the collision there were 110 persons aboard the Canada. The dead: Purser Bonnetiere of the Canada, Brunet of Sorel, Alfred Thibault, ticket agent of the company at Quebec, and his two sons, aged 12 and 15 years.

The Cape Breton lay at the entrance of the Lake St. Peter channel, waiting for daylight, so as to find its way through. It was getting under way, when the Canada, making for Sorel at full speed, came into view.

From statements given out, it would appear that the Cape Breton had not got headway on enough to answer its rudder, and that it swerved across the path of the passenger boat, its bow striking the Canada just forward of the paddle box on the starboard side and tearing its way half through. Then the Cape Breton swung clear and the two steamers came alongside one another.

The Canada at once began to settle, and, as the Cape Breton did not appear to be seriously damaged, the passengers were hurriedly transferred to this steamer.

## TAKES UP HIS LIFE WORK NOW

Ray Owen of Footville, Has a Good Appointment on the Government Survey.

Ray Owen, formerly of Footville, was graduated June 9 from the University of Wisconsin in the course of civil engineering, receiving the degree of B. S. On Friday he left for Garden City, Kansas, where he will resume his work as civil engineer, having received a government appointment. He has already spent two summer vacations in this line of work. Mr. Owen graduated from the Janesville high school with the class of '98. The best wishes of his many friends go with him.

Male and Female Vanity.  
Women are no more vain of their looks than men of their ability. If you wish to flatter a man it is sufficient to say: "In business every one recognizes your genius."—Anna Woodward.

Meet Wednesday: There will be a special meeting of the Teamsters' union Wednesday evening, June 13th. All members are requested to be present. J. A. Drummond, Sec.

## TWO MEN SIT IN ELECTRIC CHAIR

Pay the Penalty of Their Crimes in Sing Sing Penitentiary This Morning.

[Special by Scripps-Mellae.]  
Sing Sing, June 12.—Albert Koeppling and Oscar Borgstrom were electrocuted here this morning. Koeppling killed John Marline at Port Jarvis, 1903, as the result of a quarrel. Borgstrom killed his wife at Mount Kisco, on Easter Monday last, on account of jealousy.

## DEMOCRATS ARE AT SPRINGFIELD

Illinois Followers of Democracy Begin Their Usual Fight Tomorrow.

[Special by Scripps-Mellae.]  
Springfield, Ill., June 12.—Delegates to the state democratic convention which is to meet tomorrow are beginning to arrive. The fight is on between the Hopkins faction and the Watson-Dunlap crowd for control. The latter is largely Hearst men. Hopkins aspires to chairmanship of the convention and to name the new state committee. The Harrison men will vote against Hopkins on the organization but on instructions will favor Congressman Williams. Probabilities are Hearst will get instructed delegates.

## ARGUMENTS HEARD ALL DAY TODAY

Lawyers Fighting Hard for the Release of Gillespie at Rising Sun.

[Special by Scripps-Mellae.]  
Lawrenceburg, Ind., June 12.—Judge Downey today heard the argument in the habeas corpus case of James Gillespie of Rising Sun, recently tried for murder of his sister Elizabeth. Their release was asked on the ground Gillespie had already been placed in jeopardy. The arguments will be finished this afternoon.

## GIANT FATHER AND SON BATTLE TO THE DEATH

Quarrel Over Money Matters Is Settled in Corporate Flat Fight by Scotch Sire and Scion.

Hallfax, N. S., June 12.—Word has been received here of a bare fist fight during Saturday night at Glace Bay, C. B., in which a father was literally pounded to death by his son. The principals, "Bully" McRae and his son Jack, are men of giant physique and known throughout the Cape for their fighting ability. Both are over 6 feet in height and weigh 225 pounds. They met in a barroom and quarreled over money matters. When interference was attempted the Scotchmen drove the other occupants of the saloon from the place and, locking the doors, fought for an hour and until the older McRae was dead. The police finally effected an entrance to the barroom and placed Jack McRae under arrest.

Mrs. Maria Cooper, colored, born a slave at Winchester, Va., died at Washington, Pa., aged 110 years.

# MINE MERGER IS STUPENDOUS

John D. Rockefeller Plans Combine of All Mining Interests in United States.

## BIG MEN BEHIND THE NEW DEAL

Heinze, Clark, Moffit and Sullivan Are Ready to Join Hands in a Peaceful Union with the Other Leaders.

New York, June 12.—Announcement will be made soon of a gigantic new combination of capital in the United States and Europe. It is nothing less than an amalgamation of the valuable mines of America, and the man who is to consummate this stupendous transaction is John D. Rockefeller.

Men who have some knowledge of the work now going on in furtherance of the plan say the corporation under which the big mining interests will be merged will have a par capital of \$2,500,000,000. It is expected to control absolutely the mineral output of the United States except, possibly, that of the Calumet and Hecla copper mines of Michigan.

Mr. Rockefeller has taken up personally the task which had been left to his brother, William Rockefeller, and to H. H. Rogers, who have been conspicuously identified with the mineral interests of the Standard Oil company. For ten years the Standard Oil millionaires have been acquiring the mines of America through their banking interests.

Control Rocky Mountain Mines.  
In Colorado, David H. Moffat and Dennis Sullivan of the First National bank of Denver, have paid out many millions in the last six years for mines and control 70 per cent of the producing gold, silver and lead mines of the middle Rocky mountain district.

In California, the Western mine owning combination, controlled by the Huggins and affiliated interests, have been ready for some time to enter into an agreement with Mr. Rockefeller for a general combination of mining properties.

Senator W. A. Clark, owner of the United Verde copper mines of Arizona and with large holdings in many of the Amalgamated Copper company's mines in Montana, has been working

with Mr. Rogers for several years.

Heinze in the Combine.  
F. A. Heinze, who has given the Standard Oil and copper interests in Montana so much trouble, has been in this city for several weeks. He is negotiating direct with Mr. Rockefeller for the turning over of his interest in Montana to this new combine.

Senator Kearns of Utah has only recently sold to Mr. Rockefeller his valuable mines for something considerably more than \$1,000,000. In Idaho the Standard Oil company has had control of the producing mines for some years. In New Mexico the lead mines near the western border passed into control of the National City bank some years ago, and there are at the present time few mining districts in America where Mr. Rockefeller is not dominant.

In working out the deal Mr. Rockefeller hopes to be able to secure from the United States government a corps of engineers to give to the public a report on the actual value of the properties to be consolidated.

Plan is stupendous.

Dennis Ryan of St. Paul, one of the best known mining men in the Northwest, is in this city, and has been the means of selling to Mr. Rockefeller a group of gold and copper mining properties in Washington and southern British Columbia. When asked about Mr. Rockefeller's proposed combination, he said:

"I don't know much about it, except when he gets the thing in working shape and springs it on the public it will take people's breath away. When he discloses what he controls in the way of mines that are producing real ore he will make the mining speculation of the world wonder whether they have been awake or asleep for the last ten years."

## CATHOLIC PRIESTS IN MUCH TROUBLE

Are Forced to Flee From Korea and Manchuria to Save Their Lives.

[Special by Scripps-Mellae.]  
Rome, June 12.—The Vatican is informed a number of Catholic missionaries in Korea and in southern Manchuria in order to escape prosecution have taken refuge in the French, German and Italian warships.

## SPARKS FROM THE WIRE.

Secretary Moody left Washington for a two-weeks' visit to Boston.

The Elks hall at Waterloo, Iowa, was damaged to the amount of \$15,000 by the resignation of B. L. Masqueray, chief of design at the St. Louis world's fair, has been tendered, to take effect June 15.

The 14-year-old daughter of Police man Olive of Menominee, Mich., was drowned while picking flowers. She fell from the bank into a large body of water.

Fire at Paris, Ill., damaged T. J. Morrissey's shoe store to the extent of \$2,500 and E. J. Armentrout's grocery to the extent of \$2,500. The losses were covered by insurance.

While stooping over a spring to get a cup of water in Nashville, Tenn., Sergeant Andrew N. Davis of the Nashville police accidentally dropped his revolver. The weapon was discharged, the bullet entering Davis' breast, killing him instantly.

While razing the Pfeffer building at Mankoweto, Wis., workmen unearthed a tin can believed to contain a considerable sum of money.

Dr. William Glinder, aged 36, a practicing physician of Latham, Mo., was killed by a Burlington railway near Latham. He was born at Arenville, Ill.

Assistant Prosecuting Attorney Dalton of St. Louis, after going over the evidence at the inquest over the body of Don Manuel Cervera, the bull fighter who was killed by E. Carleton Bass, decided to release Bass.

Chinese Gamblers.  
In China drunkards as well as total abstainers are almost unknown. Gambling debts are pre-eminently debts of honor there and are more willingly and speedily paid than any others. To pay them a Chinaman will pawn all his property and even sell his children.

## Work of Women's Clubs.

According to a feminine writer, the work of the woman's club is threefold—to educate its members mentally and morally; to create public opinion; to secure better conditions of life, its worth, personal and social, is in proportion to its effectiveness in securing these ends.

## AGED BAPTIST PREACHER DEAD

William Lee Jones, a Mexican War Veteran and an Abolition Orator, Died in Chicago.

William Lee Jones, a school teacher at 13 years of age, a soldier in the Mexican war at 15, an abolition orator in the '50s, a Baptist circuit rider in the '60s, and a preacher in active service for half a century, died yesterday at the Englewood hospital in Chicago as the result of an operation. He had just accepted a call to the pastorate of the Lake View Baptist church, having had a brief vacation from religious work before that.

Mr. Jones was born in Maryland, and had been teaching school in the rural districts of that state two years when the Mexican war broke out, and he enlisted in the Eleventh United States Infantry and served throughout the conflict. In the Civil war he enlisted as a private in the Two Hundredth Pennsylvania Volunteer Infantry, and was mustered out as a lieutenant of the Seventh Maryland Infantry.

Then he traveled a circuit for the Baptist church in the mountains of Pennsylvania, afterward preaching in New Jersey, Maryland, Kentucky, Wisconsin and Illinois. He had held pastorates in Dover, LaSalle, Amboy, Princeton and Greenville, in Illinois, before going to Chicago in 1889.

Mr. Jones married Sarah Elizabeth Vulliamy at Orrstown, Pa., in 1852, and in 1867 became a Royal Arch Mason. He is survived by his widow and three sons and three daughters. Mr. Jones preached in Janesville many times in the days of circuit riders.

## MADE PEDESTRIANS BLUSH FOR SHAME

Young Woman in Beastly State of Intoxication Indulged in Vile Language at 4th Ave. Bridge.

In a beastly state of intoxication a young woman whose home is in the second ward created a disgraceful scene near the Fourth avenue bridge last evening. In the park up river some man had taken a thirty-two calibre revolver which she had been carrying and handling rather carelessly away from her and upon arriving in town she gave way to wild threats of vengeance. Near the steamboat landing a man endeavored to persuade her to go home. Whereat the girl gave utterance to a volley of obscenities that caused pedestrians on the bridge to turn and retreat their steps. After she had fought him on enraging through the man finally seized her and dragged her by main force to her home.

## DEDICATION AN IMPRESSIVE ONE

ENGLISH LUTHERAN CONGREGATION ENTERS NEW TEMPLE.

REV. KUNZMAN LEADS SERVICE

Brings a Message of Congratulation from National Headquarters and Preaches Strong Sermon.

"Peace be unto this house!" A clear, strong voice, unannounced, this impressive message at the threshold of the one-time First Methodist church at half-past ten o'clock yesterday morning. The speaker was Rev. J. C. Kunzman, D. D., of Greensburg, Pa., superintendent of the board of missions of the English Lutheran congregations. Following him came Rev. A. C. Ande, the western field secretary who organized the little flock in Janesville, the new pastor, Rev. W. F. Chazy, and the church officials bearing the sacramental service. And from those who, paused in the vestibule came the response: "And all who enter therein!" Simple and beautiful were the services that re-consecrated the old House of God to the devotion of its new tenants—a young but vigorous congregation numbering nearly two hundred.

Following the dedicatory service which included responsive readings, hymns, prayers appropriate to the occasion, and a solo by Mrs. W. H. Shnaeckel, Rev. Kunzman addressed the congregation. He said in part: "My dear friends—I come to bring you the congratulations of the whole mission board of the general council of the English Evangelical Lutheran church and also of the Church Extension society, both of which—the first, by sending Rev. Ande here, and the second by joining St. Peter's congregation of Janesville \$3,000 without interest for five years—are largely responsible for our meeting here today. We are glad to have in this city an Evangelical Lutheran church, using the language of this country, to take care not only of the anglicizing population of our own denomination but also of all who do not yet know Christ. It is our hope that the streams of influence sent forth from this congregation may create others and our prayer that it may prove a blessing to the community in which it exists."

Built Upon a Rock  
"I invite your attention to the sixteenth chapter of Matthew, eighteen verse—'Upon this rock will I build my church and the gates of hell shall not prevail against it.' This is the boldest and most marvelous assertion that was ever made by one of woman born. Standing amid the wrecks of the world's empire and dynasties that have ever seen, himself descended from a line of deposed kings, himself a son and citizen of an enslaved nation, himself so poor that he had not where to lay his head; with no retinue of soldiers, no crown, no throne—yet sitting amid the wrecks which hell had made he said: 'I will build my church and the gates of hell shall not prevail against it.' We think of that mighty empire in which Joseph and Moses had occupied exalted places; we think of ancient Egypt with her one-hundred-gated Thebes, her sphinx, her pyramids, her sciences, and her art; we think of the great empire of Babylon with her mighty temples, her hanging gardens that are still the wonder of the world; we think of that mighty Macedonian who had in twelve years at the head of an army of 35,000 had conquered the known world, had founded cities whose influence is still known, and who had sat down and wept for more worlds to conquer; we think of that empire before whom all bowed in submission—of great Rome who, from her seven hills, ruled the world—that mighty Rome to whom Jesus, himself, was subject—we think of these mighty powers with all their wealth and armies. And where are they all now? The powers of sin have disintegrated and swept them from the face of the earth. And yet Jesus, born of parents so poor that they could not secure a place in the inn, knowing all the past and future, knowing the devastation that hell had wrought and was to work, still stands forth and says: 'I will build my church and the gates of hell shall not prevail against it.'"

Who Thus Challenges All?  
"Who is this who utters a challenge to all? When Napoleon, the scourge of Europe, the mysterious genius and demon combined, after his marvelous successes and strange disappointments found himself banished on the island of St. Helena with no one but his faithful Bertrand to do him service, he one day said to this faithful companion: 'Bertrand, what do you think of Jesus? Is he simply human or divine?' And after Bertrand had given his best knowledge on the subject, Napoleon turned and said: 'I think I know men and I think my investigations and experience have taught me that this man of Nazareth was more than man. I can understand the power of a Hannibal and the might of an Alexander; I can understand the power gathered around an earthly hero, I can understand the French nation that followed me as a meteor. But here is the lowly Nazarene who, with no army behind his back, no earthly subjugation, has established an empire that has ameliorated the conditions of men and has overthrown dynasties and empires. Though that Nazarene was crucified, yet by the power of love he has millions who would rather die than deny him.' So from the catacombs of Rome, from the dungeons and deserts that little church struggled up to become enthroned as the dominant power among civilized nations."

Church Is Divine  
The church of God is not an earthly institution, but divine. There is not a truth valuable for happiness and joy in this life that is not in its possession. Her founder was the way, the truth, and the abiding hope. It is to this church that the Savior has given the key to the gates of heaven. As known and seen by men the church is partly divine and partly human. But even so it is a glorious church. Even that church to which the world may point as the weakest is a glorious thing. The wicked are in the church but not of it. Was the church or Savior at fault because Judas was in it? Was the church at fault because at the time of the Reformation it had been prostituted to the base uses of men? Men vote for party candidates because they believe in the principles well knowing that there are rogues and rascals in their ranks. Do not complain that there are hypocrites in the church. Take up the burden of over-ruling these. Act the man, not the weakling. Do we blame the hospital because there are cripples in it?"

## TOBACCO WORK IS PROGRESSING NOW

Farmers Are Transplanting the Seed and Making Ready for Summer Work.

The first transplanting of the new crop has been commenced in a few instances, says the Edgerton Tobacco Reporter, this week and growers are quite generally fitting their tobacco fields to receive the plants, which now have far to be ready by the time farmers can arrange for planting. Several buyers riding the country districts assure the writer that it will keep the grower hustling to have their fields prepared by the time the plants are large enough for transplanting. All this goes to show that even in a backward season the plant beds come forward faster than the growers can keep up with other farm work and tobacco even in this latitude keeps abreast with other crops, so the general farmer needs have little concern but his tobacco crop will have an equal show with the other products.

Janesville.  
Of all the quiet weeks in the tobacco business in this city that has prevailed during the past four months, this week eclipses them all. There has been nothing doing. That was the greeting at every warehouse door so far as sales were concerned, and the buying side showed not very much of an improvement.

L. B. Curle & Son seem to be the heaviest buyers during the week and report the purchase of a 500 case lot of 1903 and 1902 goods; they also report the sale of some of same, which seems to be the extent of what business has been done.

S. B. Heddles has completed the fermentation of the Sumatra shade grown crop that is stored at the Adams street warehouse. Prof. E. P. Sandsten, of the Agricultural Experiment station at Madison has been here the past week experimenting on this crop and is very much pleased with the results. He will soon begin a series of experiments on the same kind of leaf in Vernon and Crawford counties. The Heddles crop will be asserted the coming week.

A few growers report that they will begin planting the coming week. There were two out of town buyers in the city during the week, L. Well of New York and W. L. Dean, of the W. O. Dean Cigar Company, of Canton, Ill.

S. Grundy spends a couple of days in the Dane county field this week.

A moderate amount of country buying of last season's crop as well as old leaf remaining in growers' hands continues, which in the aggregate amounts to quite respectable proportions. The movement is all the time reducing the remaining fraction in first hands and bids fair to absorb another big bulk of the crop before another is fairly started. Prices, however, show a better average than when the bundle leaf was being sacrificed.

Representatives of the firm of Meyer & Mendelssohn are buying old and new goods in this section, having closed a deal for 2000s packed by J. G. Johnson. T. B. Earle has purchased some new leaf in the Vernon county section this week.

The transplanting of the new crop has commenced in a limited way and growers everywhere are busy preparing the fields and making ready for the plants that are coming forward under better weather conditions. The shipments out of state reach about 10 car loads, 500s, for the week from this market to all points.

## STOUGHTON WOMAN PLEAD NOT GUILTY

Aged Woman Charged With Sending Obscene Matter Through the Mails, Appeared in U. S. Court.

Old, feeble and tottering beneath the weight of infirmities of 77 years, Martha St. John of Stoughton Saturday stood at the bar of justice in the United States court at Madison on an arraignment on indictment charging her with writing and mailing a letter containing obscene, lewd and lascivious language, in violation of the postoffice department laws. "I am not guilty, your honor," said the prisoner in answer to Judge Romanzo Dunn's question on the reading of the indictment. Bail was fixed at \$250 and the aged prisoner allowed to sign her own recognizance to appear at the trial. The indictment includes Maud Ames for the same offense, who was previously arrested and arraigned, and charges that the letter in question was mailed to Mary Downey in care of Just Smith at Edgerton February 17, 1903, and contained 36 lines. It was reported that the letter was the result of a feud between women of a neighborhood and was written by one of the defendants and mailed by the other.

Constipation causes two-thirds of all sickness in the world. Hollister's Rocky Mountain Tea positively cures constipation. No cure no pay. 36 cents. Smith Drug Co.

News for the Railroad Men.

Engineer Gridley is in charge of the day switch engine today.

Stationary engineer Richter at the Northwestern round house has returned to work after spending a week visiting friends and relatives in Chicago.

Engineer J. J. Smith on the south end way freight is out duty for a few days. Engineer F. A. Barter is relieving him.

Engineer James Alexander resumed work on the Rockford-Waterloo passenger run this morning.

A special passenger train passed through the city Sunday enroute to Chicago, with a theatrical troupe.

## A CUSTOM OFFICE APPRAISER HERE

Inspector Hoek Arrived Saturday to Release Four Carloads of Canada Doors and Windows.

Inspector Hoek, a custom office appraiser from Milwaukee, arrived in Janesville Saturday to release four carloads of windows and doors manufactured in Canada and shipped to the Rock County Sugar Co. under government seal and in bond of Milwaukee. Much of the machinery and structural steel of the Dresden factory was manufactured in the United States and on about twenty carloads of material manufactured in Canada, however, a small duty will be exacted amounting in the aggregate to several thousand dollars.

## HAROLD MYERS RAN IN FINALS

Janesville Boy Took Second Place in His Race at Field Day Meet.

Harold Myers, who ran in the interscholastic field meet held under the auspices of Chicago university, returned Saturday on the midnight train with a silver trophy cup, having carried off second honors in the quarter mile run. The quarter mile race was run off in two separate events on account of the large number of starters.

There was a very large crowd of spectators and the Chicago university band furnished the music. After the meet was over the athletes were given a supper at the Reynolds club by Coach Stager.

After the supper there was a mass meeting in Mandel hall where President Harper, Coach Stager and Track Captain Friend spoke and then the prizes were distributed. Mr. Myers receiving a large silver loving cup and on it the inscription: "University of Chicago Interscholastic Meet, June 11th, 1904. Second Prize, 440 Yds. Run." Myers also received his medal from Madison for winning the 440 yd. dash in the state interscholastic.

## MRS. AMY SMITH HAS PASSED AWAY

Former Janesville Resident Died at Claremont, California—Will Be Buried Here.

Relatives in the city have been advised by telegram of the death of Mrs. Amy J. Smith at Claremont, California. She will be remembered as the wife of H. L. Smith who was in the hardware and manufacturing business in Janesville for many years and who sold his residence to Mrs. B. B. Eldredge in 1874, removing to Jacksonville, Illinois, where he died in 1881. Mrs. Smith leaves two children, Mr. Bratton W. Smith of Jacksonville and Miss Flora A. Smith, whose home was with her mother. She was a woman of generous impulses and her memory will be cherished by many of the old residents of the city. The interment will be in Oak Hill cemetery and notice of the funeral will be given later.

## AWAKEN INTEREST IN WOODMEN TRIP

Editor of Official Organ of Fraternity Returns to Milwaukee After a Successful Tour

Editor C. P. Merriam of "The Wedge," the official organ of the Modern Woodmen of America, returned to Milwaukee Saturday morning from a trip through the southern part of the state for the purpose of interesting camps in the St. Louis fair trip to be taken on Sept. 4. "Janesville and Beloit will each send two teams of forty-four men of the Uniform Rank of Modern Woodmen of America, together with 200 other Woodmen, and Rockton will send one team and about 100 Woodmen," said Mr. Merriam. "We have heard that there will be more than 50,000 Woodmen at the exposition, at least 1,000 of them going from Milwaukee by special trains. The office of the St. Louis Fair association organized by the Woodmen are: President, T. W. Newman; Secretary, H. W. Stocker; Treasurer, F. O. Howlett. I also succeeded in obtaining for Milwaukee the next annual picnic of Beloit Woodmen. This year they took 20,000 people to Madison. In June, 1905, we expect that they will bring nearly 30,000 to Milwaukee."

One Thousand Dollars Reward is hereby offered jointly by the Mutual Fire Insurance Co. of La Prairie and adjoining towns and the Mutual Fire Insurance Co. of Turtle for the arrest and conviction of the person or persons who set fire to and destroyed the property of Wm. J. Lathrop of the town of Turtle on the night of May 21st and 22d, 1904.

A. C. POWERS, Sec. of La Prairie.  
C. W. SHIMBALL, Sec. of Turtle.

## CROW SLAUGHTER IS APPALLING

DESTRUCTION ALSO COSTING COUNTY PRETTY PENNY.

TOTAL OF 2,871 THIS SPRING

Over Two Hundred Have Participated in Annihilation—Mother Crows Busy Hatching Second Broods.

Bounty on 2,871 crows has been paid in Rock county since the county fathers put a price on the head of this black fellow this spring. During the month of May 1,720 heads were brought in to be exchanged with the county treasurer for ten cents in money, each. During February the harvest was 65. It rapidly increased in March to 606. In April 382 were slaughtered and thus far in June 198 have been turned in. The crow hatches two broods of young ones each season but it is going to keep her busy to keep up with this annihilation.

Big Item of Expense.  
If the crow is really a destroyer of the growing crops, the infant barnyard fowls, and the song birds, as he is pictured, it may be worth while to expend five or six thousand dollars to get rid of him. Some of the best informed naturalists in the county, however, deny that he is a bad fellow and maintain on the contrary that his good qualities far outweigh the bad. If this is true Rock county may have embarked on a costly as well as harmful experiment. Thus far \$287.10 has been paid out and less than six months of the year have passed.

Some of the Hunters.  
Accounts have been opened by the county clerk and treasurer with 123 crow hunters. Burt Morgan of Union has brought in three consignments, aggregating 213 heads. He has a long lead in the "scores." C. J. Stoney of Bradford shot 90; Wilbur Andrew of Magnolia, 53; Burt Ballard of Union, 51; L. L. Nickerson of Johnston, 73; S. M. Johnson of Newark, 90; Michael Shalmeier of Turtle, 107; Edward Davis of Center, 49; George Hevey of Milton, 45; and Fred Madden of Newark, 65. Crows' heads are usually brought in nowadays in tin cans and when, as frequently happens, they have been embalmed in salt and kept for several days, rival and visitation cannot be ignored by anyone in the court house.

## WILL GRADUATE A BIG CLASS SOON

Special Exercises for Those Who Have Received Diplomas in Second District.

Graduating exercises for those who have received diplomas from the country schools of the second Rock county district will be held Monday, June 20th, at the high school. The exercises will be held in the school room under the direction of Mr. C. D. Antisell, superintendent of the second district. The parents and friends of the graduates are cordially invited.

## MORMONS, NOT THE USUAL BADGERS

New Name for the University Football Team That May Be Prevalent Next Season.

The University of Wisconsin football team next fall will doubtless be called "Mormons" instead of Badgers, the common name of the cardinal eleven being replaced because of the prospective presence on the team of several great-framed students from the Mormon state, sent here by the former Badger star Harvey Holmes. Two big Salt Lake City athletes are already on their way to Madison and more are expected to come shortly. They will be kept here during the summer, being given work by Assistant Graduate Manager George R. Keatchie in the raising of the athletic field at Camp Randall, Madison, enlarging the grounds and laying out and grading a second gridiron, and in other work connected with the athletic department of the university.

Mr. Keatchie has a contract to make the improvement of Camp Randall at a cost of \$2,360. This work is to be done during the summer, before the football training season opens in September. The grounds are to be enlarged by the addition of five acres of land and the old gridiron will be raised three feet by grading down a hill that now occupies the ground to be added to the athletic park. Where the hill is to be cut away a second gridiron will be laid out. The new one will be used for the practice scrimmages and the raised field will be used for the regularly scheduled games. The possession of two gridirons will enable the managers to keep the playing field in just the condition they desire it for games, keeping it covered with hay late in the season when it is desired to keep the ground dry or free from frost.

Secret of a Happy Old Age.

She cultivated a good digestion. She understood the art of enjoyment.

She knew how to forget disagreeable things.

She did not expect too much from her friends.

She mastered the art of saying pleasant words.

She did whatever came to her cheerfully and well.

She relieved the miserable and sympathized with the sorrowful.

She retained an even disposition and made the best of everything.

She believes in the goodness of her own daughters and in that of her neighbors.

She never forgot that kind words and a smile cost nothing, but are priceless treasures.

She did unto others as she would be done by, and now that old age has come to her, and there is a halo of white hair about her head, she is loved and considered.

This is the secret of a long life and a happy one."

Anonymous.

## FLAG DAY WILL BE WELL OBSERVED

Both the Governor and the G. A. R. Issue Special Orders for the Day.

Flag day will be generally observed throughout the country on Tuesday, June 14.

Gov. La Follette has issued a proclamation designating the day as Flag day in Wisconsin and recommending that all patriotic citizens give expression to their love of country by displaying the national colors at their homes or in their places of business on that day. The mayors of the various cities are requested to have flags displayed on all public buildings upon that day. In nearly all the schools exercises of a patriotic character will be given.

Allen C. Bakewell, chief aide to the commander in chief of the Grand Army of the Republic, in charge of patriotic education in the schools, has issued the following proclamation: "The following proclamation is issued by Americans to 'rally to the color'."

The near approach of June 14 should remind every patriotic citizen that the 12th anniversary of the birth of the United States flag should be recognized and observed.

For more than a century and a quarter this flag has triumphantly floated in honor—a beautiful token of perfect liberty.

There is perhaps no inanimate object on the face of the globe, with more expressive life, than the flag of our country. It seems to be eloquent in an universal language all may understand. When it spreads its folds of red and white and blue, rippling in sunlight, it betokens victory, dignity, joy, power and command.

When it droops, it symbolizes compassion and sorrow, and draped over the casket of its protector and defender, it means regard and history—a becoming shroud for the soldier dead.

The defense of the flag was the soldier's mission of the civil war; the preservation of it is the mission of every American citizen living under it.

The flag is the signal of protection; whether against foreign or domestic foe, the invader or law breaker, the revolutionist, socialist or anarchist, it is a sign the nation has set up, proclaiming freedom to all, protection and humanity.

After ten years of earnest endeavor, the several states have enacted laws providing for the display of the flag over the schoolhouses of all districts where patriotic regiments, under it, millions of children, who will govern the country in the next decade or two, are being educated to be loyal citizens.

The country saved by valor and sacrifice is made more secure, year after year, as mind after mind absorbs the value of true patriotism. So then, fellow citizens, let us hoist the flag on its coming birthday. It will mean that each home, beneath its protection, is a fortress to resist the approach of every foe. Over this castle freedom in its highest conception, and the equality of man, of whatever race, that is the creation of infinite thought.

Fly it from every house top—every public building—from every movable vehicle—that the world may know the American people honor the birthday of the flag, the love of which is the nation's safety—as necessary as preparation for war.

Through the influence of those who will hold aloft the flag—and all the principles it represents, the multitude of unrefined immigration will realize that all that is alloyed with treason or degeneracy must pass through a crucible that is heated over a furnace fed with the patriotism.

## MANY LAUNCHES ON ROCK RIVER

Sunday Was an Ideal Day, for Boating—Several Spent the Day at Different Places Along River Bank.

Sunday morning all the steam and gasoline launches on Rock river made their appearance and as soon as the sun began to shine crowds commenced to wend their way to the river and were soon on the way up the stream to spend Sunday in the woods.

The Bower City has now in the neighborhood of thirty private launches on Rock river. This season about ten new launches have been put in the river by persons residing in the city.

## A HONEYMOON TRIP TO DISTANT NEW ZEALAND

For Rev. Taylor Who Married Miss Ida Roehrs of Clinton.

A honeymoon voyage to New Zealand will be the fortune of Rev. A. H. Taylor and his bride. The latter, formerly Miss Ida Roehrs of Clinton, daughter of Rev. and Mrs. H. Roehrs, was married to Rev. Taylor by her father in the German Lutheran church. She is well and favorably known in Rock county and has many friends in Janesville. Rev. Taylor is called to New Zealand to engage in missionary work.

Mr. and Mrs. H. M. Koehler and two little daughters of Bellingham, Washington, are visiting relatives, Mr. and Mrs. J. Koehler, 203 Locust street.

## RIVER ENGULFS ANOTHER VICTIM

HANS OLSON DROWNED NEAR  
GREENLAND YESTERDAY.

### THREE IN ROWBOAT UPSET

While Attempting to Secure a Tow  
Downstream by Steamer "Colum-  
bia"—Body Was Recovered.

Pleachers along the banks of the Rock had their afternoon's pleasure marred by a terrible tragedy in mid-river which occurred in the vicinity of Hastings cottage shortly after one o'clock yesterday. Hans Olson, a man about thirty-eight years of age who has been employed as a molder under Foreman Kuthman in the Janesville Machine Co.'s foundry, and two companions were proceeding down river in a rowboat when the little steamboat "Columbia" approached on her trip downstream from the park. As the steamers neared them one of the three sang out: "Give us a pull down!" and Capt. Gehrke who was up forward in the wheel-house shouted back: "If you can catch us!" He says he thought no more of the incident and had not the remotest idea that they would attempt to come alongside.

### Boat Was Overturned

Nevertheless this is what the men did. They came alongside the steamboat near the stern and one of them seized a hold. In a moment the rowboat was overturned and looking back several minutes later Capt. Gehrke says that he saw the men in the water, apparently making good headway towards the shore. By this time the steamer was a good distance away and inasmuch as it would have taken considerable time to bring the "Columbia" about and go back to the rescue he halted a launch that was on her way up stream and asked the owners to look after the men.

### Olson Is Drowned

It was not until his craft had been in her dock for a half hour that Capt. Gehrke heard of the awful outcome of the episode. When the rowboat had overturned the two companions of Olson, William Domly and a man by the name of Dewit, who are also molders at the Harris works succeeded in retaining their hold on the little craft but the former who was a fisherman in the old country and had always been regarded as an excellent swimmer, struck out for the west shore and had reached a point about four rods distant when horrified spectators who had been watching his progress saw him suddenly sink not to rise again. Meanwhile the rowboat and the two men who were clinging to it drifted down to a shallow portion of the river and they were able to regain the shore.

### Drugged River for Body

From the Hastings residence at twenty-five minutes after one a message was sent to Sheriff Appleby and with Turnkey Roy Graves he arrived on the scene about twenty minutes thereafter. After a few efforts had been made to locate the body with a spear the sheriff communicated with George McKee and Robert Hockett asking them to bring their yachts and some grappling hooks up river. After their arrival the wearisome search commenced and the men worked like Trojans for an hour and a half. Finally at a point about two rods from the place where Olson had sunk the hook which Sheriff Appleby was dragging discovered the body. It was lifted into the boat and taken to the shore. No attempts at resuscitation were made, being deemed hopeless, and the remains were taken to Nelson's undertaking rooms in the city.

### Water Twelve Feet Deep

The water at the point where the body was found was twelve feet deep and indeed that was the average depth in that portion of the river. The watch which Olson carried had stopped at twenty minutes past one, just five minutes after he sank to his death. Strangulation caused by a large quantity of chewing tobacco which he had in his mouth and the water that entered his nostrils when he was first precipitated into the river may have been responsible for his drowning as no evidence that he had been overtaken by cramps was to be found. However, there is a treacherous undercurrent at Greenland where the tragedy occurred. A wife of the dead man who was a party to a separation by mutual consent last summer, is now living in Waubesa. She has been notified and is expected to arrive here some time today. Olson carried a \$1,000 insurance policy on his life.

### CURRENT NEWS NOTES

**Entertained at Dinner:** Stanley Tallman entertained a small party of friends at an elaborate five course dinner at the St. Louis club house Saturday evening. Among the guests were Harry Atwood of Minneapolis and Wallace MacGregor of Racine.

**Died of Diphtheria:** Clara McCarthy, four year old daughter of Mr. and Mrs. Charles McCarthy, died of diphtheria at the home of her parents in the town of Rock, five miles south of the city, at noon Saturday. Owing to the nature of the disease the burial occurred Saturday evening at Mt. Olivet cemetery.

**Will Deliver Address:** Senator John M. Whitehead of this city will deliver an address to the Lincolnian Literary society of the state normal school at Whitewater on Friday evening, June 17.

**Meet on Wednesday:** The W. C. T. U. will meet with Mrs. Willard Robinson, corner Carrington and Wheeler streets, Wednesday at 2 o'clock. The flower mission program will be in charge of Mrs. Hattie Miller. A cordial invitation is extended.

## WILL PRESENT MONSTER LISTS

FACTORY OWNERS WANT FIRE  
STATION BADLY.

### DESIGNATE THE LOCATION

Their Arguments Are Sound, and  
the Council Should Listen  
to Their Demands.

At the council meeting this evening a monster petition signed by a majority of the business men and manufacturers will be presented asking that a fire station be placed south of the Jackson street bridge instead of north of the bridge as the plan now appears to be. The arguments used are that south of the bridge the six hundred thousand dollars worth of factory and residence property would be better protected than if the new station is placed north of the bridge as has been talked of.

**For the Factories**  
The plan of establishing a new fire station in this district is to protect the factories that are ever on the increase in this district. These factory owners are the men who need this fire protection and they should have a voice in the location of the station house. The petition to be presented this evening is signed by men whose money is invested in this locality and whose business interests demand that they receive good protection for their investments.

**The Petition**  
We, the undersigned property holders and citizens interested in the factories and residences in the southern part of the city respectfully petition the common council of Janesville to place the proposed new fire station south of the river but near the Jackson street bridge. There are at present located in this region the Choate-Hollister Furnace Co., P. R. Honadel, Jr., Co., Hough Shale Corporation, Janesville Pearl Button Co., Conrad tobacco warehouse, Buob brewery, Janesville Cement, Post Co., Rock County Sugar Co., besides a large number of dwelling houses in the Spring Brook addition, also Milwaukee's new addition to Janesville. We believe that it is greatly to the interest of the largest number of persons and of the amount of capital invested to have the fire station located at the southern end of the Jackson street bridge and we also believe it will be greatly to the advantage of future factories and homes.

### The Signers

Among the prominent signers of the above petition are John Thorngood, Ogden H. Fethers, R. M. Hostwick, Jr., M. G. Jeffers, George Sutherland, C. E. Millmore, Jas. W. Scott, L. A. Sherman, A. E. Bingham, C. S. Cleland, V. P. Richardson, A. P. Burnham, M. O. Mount, Peter J. Mount, S. Norris, W. S. Jeffers, F. H. Snyder, Archie Held, O. S. Morse, E. J. Burdick, George McKee, J. M. Hostwick, Joe Hostwick, George S. Parker, W. F. Palmer, Michael Hayes, D. W. Hayes, D. W. Watt, A. C. Hough, Jas. Smeater, Stanley B. Smith, J. J. Estes, Geo. D. Simpson, A. Schaller, H. F. Bliss, H. H. Bliss, P. Honenadel, Jr., Don Farnsworth, George E. King and G. F. Bulkup.

### A Good Move

This movement on the part of the factory owners and business men should meet with the approval of the council. It is a move for the protection of the factory district of the city and meets with the approval of the men who are most interested. The council tonight should rescind any previous action and grant the demands of the men whose property is at stake. With the new station located at the south end of the bridge more property would be more quickly protected than if located at the north end. The argument is used that it would take but eighty seconds to cross the bridge for a fire in Spring Brook and this argument works both ways with a shade in favor of the southern location.

### BOYS MUST NOT SWIM UNDRAPED

Bathing Suits Are Required of Those  
Who Disport Themselves in the  
Rock—Some Complaints.

Swimming time is here and some of the youngsters are already showing a disposition to disregard such mere trifles as bathing suits. Only draped figures are permitted by the city ordinances and Officer Brown will feel called upon to arrest those who persist in the violation. Many complaints have already been received.

**Reduced Appropriation:** According to custom the Soldiers' Relief commission of the county has reduced its appropriation for the summer months. The sum distributed for June and July will be \$552. It was \$722 for April and May. In April and May, 1903, it was \$722; in June and July, \$616. Ninety-two received relief during the past two months.

### Wall Paper Sale

Any paper in the house for 10c and some good papers for 2c a roll. J. H. Myers.

### THE KING HAS RETURNED

We have said nothing about fried cakes or bread for several days because he was away and no one else has ever made them the same for us, although using our recipes. We do not understand why a graduated baker cannot take any recipe and produce from it what another man can, but we know that it isn't done. The man who can make what we want and what you want is here now and as he may go away some time again you can while you can. We sell this bread at 4c a loaf when it ought to be 6c, and the fried cakes are 10c doz. Potatoes—Fine new, 45c pk. New peas, 60c pk.

Coffee—Howard and Spurr's Paul Revere brand of Mocha and Java, the great reputation coffee of the world, 35, 20, 25 and 20c lb.

GRUBB PRODUCE CO.

## TWO FIGHTS THAT DISGUSTED MANY

One Late Saturday Night, and the  
Other in the Court House

### Park Sunday Afternoon.

On Saturday night as a clerk in a prominent store on Milwaukee street was looking up for the night he was forced to suspend his work and take a hand at teaching a young rogue that his place was not in insulting peaceful citizens, despite the fact he has quite a reputation for being a "mixer." Spectators who saw the fight saw that the "mixer" got all that was coming to him and just a little bit more. It was interesting while it lasted and then the clerk went on about his business and closed his store. Sunday afternoon another fight occurred in the courthouse park. Just what caused it is not clearly understood but two men took a hand at beating and kicking a young fellow to such an extent that spectators thought that another Zimmerman murder was about to take place. The park was full of respectable people when the trouble began and in a few minutes it was almost deserted. The assailants and their victim were hurried away before the police arrived.

## COMMITTEE SAYS THE BEST EVER

This Fourth of July Will Be One  
Long To Be Remembered—New  
Features Arranged For.

There is no doubt that the Fourth will be duly celebrated in Janesville. The enthusiasm is steadily growing and the interest in the surprises that are in store for the spectators increases daily. There was an interesting meeting on Saturday night of the None Such Brothers' circus committee and possible exhibitors, Geo. M. McKee, chairman of the committee and special representative of the None Such Brothers, was busy taking down the names of the possible exhibitors as they reported to him. His list is a goodly one now and by the end of the week he hopes to have it doubled. All who contemplate taking part in this parade should at once notify Mr. McKee or one of the committee in charge. This committee is appointed at the mass meeting is composed of George McKee, chairman, H. H. Bliss, Chas. Gage, Will McVieker, E. D. Roberts, Frank Mount, D. W. Watt and L. J. Wilbur. There is just as much interest in the other parts of the program and if present reports count for anything there will be enough band music and street attractions to suit the most fastidious. The other committees who are at work to make the day a success are:

**Spoken—L. F. Wortendyke, H. J. Cunningham.**  
**Advertising—Chas. Putnam, W. H. Greenman, H. L. McNamara, John Jones, A. N. Gleason, W. A. Johnson.**  
**Music—R. M. Hostwick, Jr., Geo. King, H. Dedrick, C. N. Van Kirk.**  
**Finance—F. S. Winslow, L. P. Wortendyke, C. C. McLean, P. J. Mount, A. L. Schaller, W. F. Carle, John Sweeney, W. C. Hart, Ed. Schmidley.**  
**Decorations—Will Sayles, R. M. Hostwick, Will Skelly, F. S. Winslow, Ed. Carpenter, J. E. R. Winslow, F. S. Hinterscheld, Warren Skelly.**  
**Amusements—Geo. Simpson, W. H. Greenman, F. S. Sheldon, Will Wheeler, John Sweeney, Tom Siegel.**  
**General Arrangements—L. P. Wortendyke, Geo. M. McKee, Will Sayles, Chas. Putnam, Geo. Simpson, Will Wheeler, Frank Jackson, F. L. Clemens, Will Jackson, A. E. Bingham, Fred Jeffers, J. P. Baker, E. H. Connel, W. A. Johnson.**

## AGED GENTLEMAN MUCH SURPRISED

George C. Ferris, Aged Eighty-Four  
the Guest of His Own Fam-  
ily Sunday.

The eighty-fourth birthday of an old citizen of this city, Mr. George C. Ferris at 114 Fourth avenue, was an opportunity for his six children, thirteen grandchildren and two great grandchildren to surprise their venerable sire. Last Saturday, June 11th, Mr. Ferris, rose early in the morning and surprised his family and old patrons by mounting one of his ice wagons and handling the team to make the usual forenoon delivery, to celebrate his 84th birthday. No sooner had he thus surprised his family than the telephone was kept busy for a time making arrangements to give him a surprise. Because of the fact several of the family live out of the city it was arranged to have the surprise come on Sunday afternoon. The arrangements worked to a charm. Ice cream, a variety of eatables and Mexican coffee were served and the presents almost overwhelmed Mr. Ferris. The occasion was one of great enjoyment to all interested. Mr. Ferris seems to grow younger as the milestones are passed. He is a constant reader of the Gazette and one of the staunchest of oldtime republicans to be found in Wisconsin. He is interested in reforms but has no use for the methods used by our present governor.

**\$20.00 Reward**

For information that will lead to the arrest and conviction of the party or parties who entered my residence in December, 1903. E. S. Williams.

### Recital.

The pupils of Miss D. Cheney will give a recital at the home of Mr. and Mrs. James McFar, Thursday evening, June 16, at 8 o'clock. Everybody invited.

### THE WEATHER

Temperature last 24 hours taken from U. S. registered thermometer at Holmstedt's drug store: highest 81 above; lowest, 58 above; ther, at 7 a. m., 65; at 3 p. m., 81.

### Boys Off for Farm:

A carryall loaded with boys left early this morning for the W. A. Slocum farm at Huguenin to weed beets. Mr. Slocum has 35 acres, the largest single tract in the county.

## - PINEAPPLES - For Canning

**\$1.10 a dozen**

Good size. Cuban Red Spanish. Don't wait for them to be cheaper. Finer varieties to come later are reported scarce.

A few smaller 85c doz.

### Dairy Butter

We have a surplus of fine fresh butter in one gallon jars. It's cheap if you can use a jar.....16c

### Lemons

Finest lemons obtainable. Bright yellow firm fruit. No waste. Full of juice. You cannot afford to be without them.....30c dozen

### Elsie Cheese

Fresh new lot Has the flavor.

### Details of the Case---Affairs at Memphis.

Just what plan he proposes to adopt in going before the civil courts, whether with an action for damages or some other course, he has not as yet divulged. It will, however, put

at each meeting of the grand circuit if the same conditions prevailed at all the meetings.

The only objection to it is the tendency to breed a race of dash horses.

The grand circuit will not commence until July 25, so far into the summer that it is almost too late to start. The season has been so long delayed that the horses would seem that every trainer should have his horse in good shape, no matter how much he may have suffered from lack of exercise. It is now time to begin nothing of commencing the racing season the last of May, as the meetings advertised elsewhere border testify. Years ago the racing season in the United States commenced about the first of June, and it was not till the middle of August that the season was over. In no reason to believe that the best horses will not win the early races where wintered. The horses in training at Memphis have made good in public, and are doing well in private. There is no doubt that they will perform well in the early meetings. In years past some of the star performers have fallen by the wayside, but the easy manner in which those in training at Memphis have performed during the winter months makes one feel confident that they will do well in the early meetings.

As a great many presumed that the board would drop the case after disallowing the record, they have to be commended, notwithstanding the delay, in taking the course they have taken with a view to punishing the parties to the fraud, if such there was. The taking of the case into the civil courts, however, will have several interesting features, as it will demonstrate the standing horsemen have before the courts as to the effect of decisions made by tribunals, as well as probably bringing an earlier settlement of the case.

Sanders' altered plans made it possible to have a star member on a recent matinee card at Memphis. Lou Dillon graced the occasion by giving her first public exhibition for the year. She was allowed to move a million in 2:12 only, but did it in her accustomed style, begging to be allowed to split the wind, but submitting gracefully when she found out that it could not be. Except that she is stouter, she has changed little from last year. Nobody there thought it was that she thought she will go this season. They are simply content to know that she is as sound and smooth as a green fill and in the most exuberant health and spirits. The rest, they feel, can be left to her, and, be it remembered, she has never in her life failed to accomplish any task required of her.

Do you want the little ones happy, strong, robust and healthy? One package of Hollister's Rocky Mountain Tea will make them strong and well. No pay if it fails. 35 cents, tea or tablets. Smith Drug Co.

I know a jolly old maiden lady,  
A lady of high degree,  
Who never goes to bed—without  
A drink of Rocky Mountain Tea.  
Sensible woman. Smith Drug Co

That's why doctors say "Schlitz." Ask for the  
Brewery Bottling.

# The Beer That Made Milwaukee Famous.

duced, and even in some cases obliterated, the mortality prevention is no longer such an important problem, and therefore preventive measures, such as starving, blood letting, etc., which have a severe and lasting effect upon the animals, should be abandoned. The most recent preventive treatment suggested is in line with the favorable results obtained by the injection of air into the udder. It consists in allowing the susceptible cow to retain in the udder for twenty-four hours following calving all the milk except the small quantity required by the calf. The distention of the udder naturally follows as in the air treatment and acts as a preventive against milk fever.

RIVER CHALLOWS ENTIRE FARM

**Iowa Man Sees Last of His Four Hundred Acres Disappear.**

Sloux City, Iowa, June 13.—A fine farm of 400 acres lying along the Missouri river in Lakeport township, south of this city, has been literally eaten up by the river. The land was worth \$75 an acre and was owned by Robert Buchanan. It has taken just five years for this farm to be completely swallowed by the river. The merciless stream is still cutting heavily on other farms in the same vicinity. The land belonging to the John Naltn estate has suffered a loss of over 200 acres.

### TOO QUICK FOR THE TEACHER

**Farmer Gets Rifle and Kills Before  
Antagonist Can Draw Pistol.**

West Plains, Mo., June 13.—William Hesterly, a schoolteacher, was shot and instantly killed near here by George W. Bunden, a farmer. Hesterly had gone to Bunden's home to talk regarding a charge preferred against him by Bunden and a quarrel resulted. Hesterly attempted to draw a revolver, but Bunden secured a rifle and shot him dead. Bunden surrendered to the authorities.

King's Collection of Birds' Eggs.

The King of Denmark has a very valuable collection of birds' eggs, which includes specimens of nearly every kind in existence. The collection is considered to be worth about \$75,000.

**BEST HOTEL IN ST. LOUIS—  
THE INSIDE INN,  
WORLD'S FAIR GROUNDS**

**Affords Superb Accommodations and the Greatest Convenience for Visitors.**

Nothing finer in the way of hotel accommodations at any world's fair has ever been seen than The Inside Inn at St. Louis. It is situated right inside the World's Fair grounds and stands upon eminence 200 feet above the level of the city. It is three stories high, 400 feet wide, 800 feet long, has 2,357 bedrooms and contains a dining-hall with a seating capacity of 2,500 people for every meal. Every modern convenience usually found in the highest class hotels has been installed in The Inside Inn. Rates range from \$1.50 to \$5.50 per day European plan and from \$3.00 to \$7.00 American plan, including admission in all cases. Rooms on suite with bath can be enjoyed at the higher rates. Range of price is governed solely by the size and location of rooms, all having equal dining-room privileges.

The hotel is under the personal management of Mr. E. M. Statter, well-known caterer of Buffalo, and this is of itself a guarantee that the cuisine and service will be of the very highest order. The enormous capacity of The Inside Inn assures good accommodations for all—no matter when or in what numbers they come—but those who prefer to secure their rooms in advance can make their reservations now for any period during the life of the Fair.

Letters should be addressed, The Inside Inn, Administration Bldg., World's Fair Grounds, St. Louis.

## PLANT DISEASE COSTS MILLIONS AFFECTS ALL SORTS OF CROPS

Corn Smut and Leaf Blight Are General in the East, While Apple Scab is Prevalent in the Orchards of the Middle West.

Washington, June 13.—Losses to crops through plant diseases are estimated now as amounting into hundreds of millions of dollars yearly.

According to the report for 1903, just issued by the department of agriculture, the damage to the potato crop through blight and rot was \$10,000,000 in New York state alone.

From all parts of the country reports of plant diseases affecting all sorts of crops come and make up a total monetary loss that it is well-nigh impossible to estimate.

The cotton root rot in Texas prevailed to a greater extent than for many years, the loss being estimated at about \$2,000,000.

Cotton is Affected.

Anthraxnose has been generally prevalent from North Carolina to Georgia and locally injurious, especially to sea island cotton in southern Georgia. Wilt continues to spread slowly and now occurs in limited areas in North Carolina and south Alabama and is widely prevalent in south Georgia and southeastern Alabama, in connection with root rot. Rust occurred as usual on the poorer soils and was unusually severe in Texas.

Potato Blight is Widespread.

The potato blight and rot caused widespread destruction, being especially enormous in New York, Pennsylvania, northeastern Ohio, Michigan and Wisconsin. The cherry shot hole fungus was injurious in New York and Pennsylvania and prevailed destructively in Iowa and Nebraska. Crown gall is becoming more serious every year as a nursery pest throughout the country. The black rot of grapes was more general in Connecticut and Rhode Island, the loss being 40 per cent.

Corn Suffers From Smut.

Corn smut caused heavy loss in Maryland and was common in New York. Corn leaf blight was general in Connecticut, Delaware, eastern Pennsylvania and New Jersey. Alfalfa rust affected Ohio and rice blight was felt especially in the Cooper river section of South Carolina, where the crop was over 100,000 bushels short. The loss from the spread of this disease in the last six years is estimated at \$1,000,000. Asparagus rust is increasing in the east and important canning districts are badly affected. Watermelon wilt is spreading in the south and cantaloupe leaf blight was injurious especially in the south, the loss in Florida being 40 per cent.

Apple Scab in West.

Apple scab was much less injurious in the east, but it seems to have been more destructive in the west, especially in Wisconsin, eastern Nebraska and Missouri. Apple canker or brown rot was prevalent in Connecticut, Ohio, New York and Michigan. Black heart, a disease affecting the wood of apple trees, was reported from Montana, Nebraska, Iowa, Kansas and adjacent states.

Brown rot was again less injurious in the eastern states, but was very destructive to southern peaches, the loss amounting to from 30 to 60 per cent of the crop in Georgia. Peach leaf curl seems to cause immense losses each year. In Ohio, in Ottawa county alone, the loss from leaf curl was \$50,000.

Insect Pests Are Numerous.

The department in a report on the principal injurious insects of 1903 says the calendar year showed smaller losses than in many years. Certain pests caused great injury in limited localities and several new insect enemies of crops were discovered.

The Mexican cotton boll weevil, which spread into Louisiana, is stamped as the most important insect pest of the present time.

LOSES LIFE FOR HIS DAUGHTER

Man Who Upbraids Another for Knocking Down Child is Murdered.

New York, June 13.—Thomas Ryan, 22 years old, of Jersey City, was shot and killed by Salvatore Rossi of this city at a Jersey City ferry slip. Rossi and a companion in their haste to leave the ferry ran against Ryan's little daughter and knocked her down. Ryan turned and asked Rossi angrily what he had done. Without a word the Italian whipped out a revolver, and, after firing one shot, repeated the revolver in his pocket and walked on. He was caught later.

Mexico Shaken by Earthquakes.

Mexico City, June 13.—For several days subterranean noises have been heard in the State of Jalisco. Sharp shocks of earthquake have been reported from Colima. No serious damage is reported. Eight earthquakes shocks also are reported in the states of Guerrero and Chihuahua.

Children Are Poisoned by Bread.

Nashville, Ind., June 13.—Two children of Louis Kuhn of Morgantown ate poisoned bread intended for a dog and were saved only by heroic work of physicians.

One Difference.

One radical difference between a boy and a girl is that the girl can get enthusiastic about a tree full of cherry blossoms without thinking of the cherries.—Somerville Journal.

Age of an Ostrich.

Thirty years is the average age of an ostrich and the annual yield of a bird in captivity is from two to four pounds of quail.

## PRESS COMMENT.

Superior Telegram: Just at this time it is difficult to tell which is creating the greater amount of alarm, in Superior, the orthodox place of punishment or the dog catcher.

Milwaukee News: It seems that Governor La Follette is preparing to utilize any turning down that the Republican national convention may give to his millionaire delegates at large ticket by parading it before the "fair-minded" Democrats as evidence that he's being crucified by the corporations and Wall street because he is fighting "the people's battle."

Boston Herald: One of the prime attractions on the Pike at St. Louis is the game of jal alai. It is run by Spaniards and the six seniors who serve at the game are Bezema, Tonshill, Ataxia, Menigitis, Hysteria and Delirium.

Washington Star: As the summer approaches scientists will, of course, offer the customary reminders that kissing and ice water are dangerous. It is safe to say that ice water will nevertheless receive appreciative attention as usual.

Radio Journal: It was well worth a special to announce that a Carlyle, Illinois, man had wedded his sweetheart whom he had called on 2,600 times in twenty-five years. Nothing like encouraging the belated boys and girls.

Cincinnati Commercial Tribune: The question of which is which between the two Republican State conventions in Wisconsin has been taken to the Supreme Court of the State for decision. Bad thing all around when politics get into the courts, and the decision will leave a mighty bad political taste in the mouths of the losers.

Atchinson Globe: It is related that a superintendent was investigating a railroad wreck and asked a brakeman to tell where members of the train crew were when the accident occurred. "The conductor was up in front fumbling the tickets," the brakeman said; "the eagle eye was oiling the pit; the hind screw was back in the doghouse lighting the sign, and I was down ahead bending the rail."

## SPRING WHEAT ACREAGE IS GREATLY REDUCED

Reports to Department of Agriculture Indicate a Falling Off of 7 Per Cent From Last Year.

Washington, June 1.—Preliminary returns to the chief of the bureau of statistics of the department of agriculture on the acreage of spring wheat sown indicate an area of about 17,140,800 acres, a decrease of 116,100 acres, or 7 per cent, from the revised estimate of the acreage sown last year. The average condition of spring wheat June 1 was 93.1, as compared with 95.9 at the corresponding date last year, 95.4 June 1, 1902, and a ten-year average of 93.8.

The average condition of winter wheat June 1 was 77.7, as compared with 76.5 May 1, 1904; 82.2 June 1, 1903; 76.1 at the corresponding date in 1902, and a ten-year average of 79.8.

The total reported area in oats is about 27,646,000 acres, a reduction of 86,300 acres, or 3 per cent, from the area sown last year. The average condition of oats June 1 was 89.2, against 85.5 June 1, 1903; 90.6 at the corresponding date in 1902, and a ten-year average of 89.5.

The acreage reported as under barley exceeds that harvested last year by about 153,000 acres, or 3.1 per cent. The average condition of barley is 90.5, against 91.5 June 1, 1903; 93.6 at the corresponding date in 1902, and a ten-year average of 89.

The acreage under rye shows a reduction of 6 per cent from that harvested last year. The average condition of rye is 86.2, against 90.6 June 1, 1903; 88.1 at the corresponding date in 1902, and 89.6 the mean of the corresponding averages of the last ten years.

Handsome Bible.

The most beautiful volume in the Congressional Library at Washington is a Bible which was transcribed on parchment by a monk in the sixteenth century. The general lettering is in the German text, each letter is perfect and there is not a scratch or blot from lid to lid. Each chapter begins with a large illuminated letter, in which is drawn the figure of a saint, some incident of whom the chapter tells.

Used in Disseminating News.

Of all the paper produced in the United States, New York uses one-eighth for its newspapers. It is estimated that all the paper mills of this country turn out about 4,000 tons each day, and of this the newspaper presses of its chief metropolis consume 500 tons.

Where Frogs Are Raised.

The states supplying the largest quantity of frogs for the market are California, Missouri, New York, Arkansas, Maryland, Ohio, Virginia and Indiana. Frogs are very plentiful in New York, but they bring less than those of the Western States because of their small size.

Feminine Sagacity.

A woman's idea of the way to make a good bargain is when she wants to sell a thing to pretend it isn't worth having, and when she wants to buy it that she couldn't live without it.—New York Press.

Curled by Government.

In certain Swiss cantons all dead people, rich as well as poor, are buried at the public expense. Coffins and all funeral necessities are furnished by government undertakers.

## MACCABEES WILL BUILD TEMPLE AT PORT HURON

Members of the Modern Order Are to Be Assessed 50 Cents to Pay For the Structure.

Battle Creek, Mich., June 11.—The great camp of the Knights of the Maccabees has decided not to move the headquarters from Port Huron and voted a special assessment of fifty cents on each member to pay for a temple to house the great camp's offices. It was decided to meet at Taddington in 1906, though this action may be reconsidered. The great recorder's salary was raised from \$2,500 to \$3,000 per year. A proposition to separate the disability fund assessments from the regular life insurance business of the order and to make separate assessments for each was voted down.

The great hive, Ladies of the Maccabees, voted unanimously to change back to its old colors, red, white and black, instead of the red, white and blue colors adopted recently by the executive committee. The committee feared a law suit with the rival lodge, the supreme hive, Ladies of the Maccabees. They decided to hold the next biennial convention at Detroit and it is for this reason that the great camp is likely to reconsider its selection of Taddington.

ARMOUR & CO. TO PAY BIG FINE

Iowa Supreme Court Rules Against Them for Coloring Oleomargarine.

Des Moines, Iowa, June 11.—The Armour Packing company must submit to a heavy fine for violating the Iowa statute against coloring oleomargarine, according to a decision of the supreme court. The big Chicago packing company has bitterly contested the suit, confessing that the life of the oleomargarine business in this state hinged on the result. A conviction was obtained a year ago, but reversed on a technicality on an appeal from this conviction. The supreme court holds that no matter if oleomargarine is not colored artificially, so long as it contains the least bit of yellow, even if caused by natural ingredients it cannot be sold in Iowa, and the dealer and manufacturer are subject to a penalty.

FARMER'S TELEPHONE BLOWS UP

Man Replaces Carbon With Powder and Disaster Follows.

Huntington, W. Va., June 11.—A farmer living near this city, through motives of curiosity, took apart his telephone transmitter. While examining it the granulated carbon fell out. The stuff looked like gunpowder to the farmer, and he replaced it with that material. Then he called up "central" to see if his telephone would still work. An electric spark set off the powder and the experimental farmer was badly injured in the explosion.

DRIVE SUSPECT FROM BEDFORD

Man Acquitted of Schafer Murder Moves to Save His Life.

Linton, Ind., June 13.—James McDonald, recently acquitted of the charge of murdering Miss Sarah Schafer, the Bedford school teacher, has moved to this city and gone to work in the coal mines. McDonald says he was warned that if he did not leave Bedford with in twenty-four hours he would be lynched. The miners have bought for him a set of tools.

Whole Family Drowned.

Antlers, N. T., June 12.—Five members of a family named Smith were drowned at Wadena, near here. The father, mother and three children were the victims of the unprecedented flood. Communication has been cut off. Antlers has had no mail service since June 4.

Artist Goes to Sanitarium.

Flushing, L. I., June 13.—Dr. Barton Wallace of Franklin, Ind., father of Earle W. Wallace, the young artist who was found by the police running wild with a pack of dogs in the Highland woods, arrived at the Queen's county jail and took his son to a private sanitarium.

White Bread Is Best.

White bread supplies more available nutrients to the body than bread made from Graham, entire wheat, or any other kind of flour milled at the present time.

Will Admit American Cattle.

Washington, June 13.—Mr. White, United States charge at Buenos Ayres, reports that as a result of the stamping out of the foot and mouth disease Argentina has removed its prohibition against the importation of cattle from this country.

Farmer's Wife Kills Herself.

Shoals, Ind., June 13.—Mrs. Jack Dawson, who took carbolic acid with suicidal intent, died in great agony. Mrs. Dawson was the wife of a well-to-do farmer and owned considerable property in her own right.

Girl Kills Her Father.

Norton, Kans., June 13.—A. C. Jenkins, living six miles east of Norton, while beating his wife was shot dead by his 11-year-old daughter. Jenkins was insane and had often threatened to kill his whole family.

Hotel for Poor Children.

Des Moines, Iowa, June 13.—Charitable people are planning to build a permanent outing hotel at the "Ledges," a territory not far from this city, for an annual outing place for poor children.

Gen. Pratt Is Removed.

Carlisle, Pa., June 13.—Gen. Pratt has been removed from charge of the Carlisle Indian school on account of his criticism of the interior department.

## PRIVATE TRAIN TO HIS DOOR

Millionaire Hagglin to Build Electric Line From House to Railroad.

Lexington, Ky., June 13.—It is announced that J. B. Hagglin, the millionaire turfman, will soon complete a private electric line from the front gate of the Elmendorf farm to his residence. Arrangements have been completed to connect it with the Paris & Lexington Interurban line. Hagglin can then step in his private car in New York and not leave the car until he steps out on his front porch. The interurban electric line connects with the railroad. He will use the private track also for hauling coal and other freight.

## ABANDON HUNT FOR BANDITS

Officers Lose All Trace of Denver & Rio Grande Train Robbers.

Glenwood Springs, Colo., June 13.—The chase for the two Denver & Rio Grande train robbers who escaped from the posse which surrounded them in Garfield canyon several days ago has been abandoned. It was reported that the men had been located in a cabin and would be captured at daylight Sunday. When day dawned and the log cabin was entered the fugitives were not there. The posse broke up and the officers who led it returned here. They announced that the hunt for the robbers would be left to other agencies.

## COLORADO HAS A CLOUDBURST

Several Bridges Are Carried Away and Heavy Damages Are Feared.

Colorado Springs, Colo., June 13.—A cloudburst of five miles north of this city raised Monument creek almost to the point of flooding the lowlands of the city. The cloudburst occurred late Sunday afternoon and the creek reached a depth of ten feet before 7 o'clock. A Rio Grande bridge was washed out and low wagon bridges are gone. No particular damage was done here except to the water system, but reports of damage down the Fountain valley are expected.

## BIG VICTORY FOR SPORTSMEN

Court Holds They May Hunt or Fish on All Overflowed Lands.

Springfield, Ill., June 13.—Sportsmen can fish or hunt at their will on all overflowed lands in Illinois if the appellate court sustains the lower court in the case argued here. The decision is considered a great victory to persons outside of clubs and other organizations maintaining reserves. All hunting reserves will be put out of business by the decision. Hunters, if they abide with other provisions of the game law, may hunt in the reserves, whether they are members of organizations controlling them or not. The court holds that such privileges cannot be restricted to members of any organization.

## Millionaire Weds Poor Girl.

Brockton, Mass., June 13.—Maud Ella Crowell, the pretty daughter of Frederick Crowell, a workman in a shoe factory here, has been married to Henry S. Flete of San Francisco. The groom is said to be a millionaire.

## Two Boys Drown.

Barton, Wis., June 13.—George Johann and Mariz Williams, both 15 years old, were drowned while swimming in the Milwaukee river. The boys were caught by the current and were unable to reach shore.

## Pour Hot Coffee Over Woman.

Patric du Chien, Wis., June 13.—Four railroad employes were arrested during the closing of the carnival for pouring a pot of hot coffee over a woman and then defying the police to arrest them.

## Degree for Osterhaus.

Lebanon, Ill., June 13.—At the commencement exercises of McKendree college the degree of doctor of laws was conferred upon Maj. Gen. Peter Joseph Osterhaus of St. Louis.

## Sparrows Are Swift Flyers.

Common house sparrows fly at the rate of seventy-two miles an hour.

## JANESVILLE MARKET REPORT

# EVERY ONE HAS EQUAL CHANCE

THERE is just one thing that will win the coveted trip of a week's duration at the St. Louis World's Fair, and that is WORK—continuous hustle. The spurts of work don't count for as much as the continuous grind, the everlasting idea in mind that the trip is yours to get and that you are going to get it. Devote some time each day to talking the trip with your friends and they will be glad to help you. It's easy to secure votes, because it's easy to secure new subscriptions. Try it. You'll succeed—and keep thinking about that week of unalloyed pleasure, without cost, without worry, with every adjunct that goes to make traveling and sight seeing a pleasure—a luxury, you might say. Your travel on the railroad will be made in a Pullman car. Your stay at the grounds and in the city will be all that can be asked for.

Contestants' names are being enrolled, a number of them each day, and it will be wise for you to make the start in the race at once. Do it NOW! --TODAY!

## CONDITIONS OF THE CONTEST

The popularity of the candidate is to be determined by the number of votes cast for him.

**Premiums**--In addition to the regular schedule, new subscriptions will secure premiums when paid in advance, as follows:

One month paid in advance, 100 votes.

Three months paid in advance, 400 votes.

Six months paid in advance, 1,000 votes.

One year paid in advance, 2,500 votes.

**Regular Schedule**--Both old and new subscribers who pay in advance and for all coupons will receive the same number of votes—that is for every cent paid in advance during this contest:

4 votes until midnight July 2nd.

3 votes until midnight July 30th.

2 votes until 10 p. m. August 31st.

1 vote for all coupons clipped from the Gazette and delivered at this office before 10 p. m. August 31st.

Cut out the Coupon each day, enter the name of your favorite and forward to the Gazette office.

## Amateur Boxers.

Rodenbach the King of Them  
All—His Recent Victory  
Over Berger.

Amateur boxers of stellar ability have been developed in various American clubs. Some of them have graduated into the professional ranks and there won fame and fortune. Probably the two strongest amateurs in the country at present are W. J. Rodenbach, champion of the middleweight and heavyweight classes of the Amateur Athletic union, and Sam Berger, the

W. J. RODENBACH, CHAMPION AMATEUR BOXER.

crack heavyweight of the Olympic Athletic club of San Francisco, where many good fighters have been developed.

Rodenbach and Berger fought recently in Frisco. Berger was widely tipped to win. Jim Corbett and others stated that he was the coming vanquisher of Jim Jeffries, Rodenbach, however, fooled them all, defeating Berger in four rounds, the limit for amateur contests.

Berger took his setback very much to heart. He did not hesitate to abuse Rodenbach and the referee, and it is highly probable that the men will be brought together in the near future.

Rodenbach is much the smaller man, and consequently he deserves all the more credit for his victory. His measurements are as follows:

Height, 5 feet 9 inches; weight, 102 pounds; reach, 74½ inches; neck, 16 inches; chest, normal, 38½ inches; chest, expanded, 40½ inches; waist, 32 inches; thigh, 21½ inches; calf, 15 inches; ankle, 9 inches; biceps, 13 inches; forearm, 11 inches; wrist, 7½ inches; fist, 12 inches.

Berger's advantage in physical dimensions may be readily seen when his measurements, as follows, are compared to those of Rodenbach:

Height, 6 feet 2 inches; weight, 180 pounds; reach, 76 inches; neck, 16 inches; chest, normal, 30½ inches;

SAM BERGER, THE PACIFIC COAST STAR.

chest, expanded, 41 inches; waist, 35 inches; thigh, 23½ inches; calf, 18 inches; ankle, 10½ inches; biceps, 14½ inches; forearm, 13 inches; wrist, 7½ inches; fist, 12 inches.

Rodenbach is employed in a brickyard in New York city. He has been a noteworthy figure in A. A. U. contests for several years. Among the men he has defeated by Emory Payne, the well known New York amateur. Payne is a policeman and weighs 210 pounds.

Rodenbach is also a splendid baseball player. He was captain of New York's champion amateur team last year.

## Too Many Brains a Detriment.

Too many brains are liable to bring effects which are worse than those which result from the use of too few.

## NEW MAYOR TAKES HIS CHAIR TONIGHT

Much Important Business To Come Up at Council Meeting—Ald. Murray Attacks "Old Fogey."

At the regular meeting of the city council this evening more favorable terms for the lease of the Andrew Barron stone quarry west of the city will be reported and the offer will probably be accepted. Mayor J. F. Hutchinson will take the presiding officer's chair and is expected to deliver a message of considerable import. At the last meeting Alderman Merritt introduced an order directing the street commissioner to divide the city into sewerage districts as provided in the ordinance already passed and directing the sewerage committee to purchase a garbage wagon. The latter committee will probably give some reason tonight for their delay in observing the order. The offer of the water company to provide water for the city park at the usual rates provided they be permitted to shut off the fountains at night will probably be rejected. The smoke ordinance may come up for its third reading and final action will undoubtedly be taken on the matter of the issue of bridge bonds and the ordinance for the construction and maintenance of sewers. The dog license ordinance has not yet been signed by Mayor Hutchinson and has therefore not been published. His official endorsement will no doubt be affixed this evening. Alderman Murray says that he does not see how a tag on a dog is going to prevent the beast from biting children and he is contemplating a flyer in literature himself in which he will show "Old Fogey" who writes things about city politics just where he gets off. Another ninety day extension of time for filing its bond will be asked by the Southern Wisconsin Interurban Ry. Co.

## COUNTY PROCEEDINGS IN EVANSVILLE NEWSPAPER

Bids Opened by Purchasing Agency Committee at Meeting Today.

Members of the Purchasing Agency committee of the county board, R. W. Cheever of Clinton, H. Elliott of Edgerton, and County Clerk Starr, met this afternoon and opened the bids of the newspapers of the county for publishing the board proceedings and pamphlets. C. A. Libby of the Enterprise and Tribune at Evansville submitted a bid of 35 cents a folio for proceedings and 65 cents per page for the pamphlets, which was the lowest of six submitted.

## ART STUDY MFG. CO. PAYS ITS EMPLOYEES

And Garnishes Proceedings Brought Against Six Insurance Companies Are Dropped.

The labor claims of the employees of the Janesville Art Study Mfg. Co., amounting to about \$500, have been assigned to F. E. Pfeiffer and paid in full and the garnishment proceedings brought against the six insurance companies by J. J. Cunningham have been dropped. There were 42 employees paid off.

## GASOLINE EXPLOSION CAUSES DEATH OF WOMAN

Three Children Are Severely Burned Through Alleged Mistake of Kansas City Groceryman.

Kansas City, Mo., June 13.—A mistake of a grocer in filling a customer's jug with gasoline when vinegar was asked for resulted in an explosion at the home of Anton Schoen in this city which caused the death of one person and injury to three others.

Mrs. Barbara Schoen, aged 62 years, is dead.

Helen, Anton and Charles Schoen were severely burned.

Mrs. Schoen bought what she believed to be a jug of vinegar at a grocery store and in preparing dinner she poured a portion of the jug's contents into a hot skillet.

Instantly there was an explosion, which enveloped her in flames and set fire to the house. Rosa Schoen, who was in the room, was badly burned before her brothers rescued her. Anton and Charles Schoen were burned in their efforts to save Mrs. Schoen and the little girl.

Mrs. Schoen died at the hospital several hours after the accident. The grocer of whom Mrs. Schoen said she purchased the gasoline denied that she had been in his store.

## Treasure Lost in the Ocean.

The greatest fortune engulfed by the sea was in the shipwreck of a French sailing vessel off the coast of Trafalgar. It carried a ton and a half of gold plates and five tons of silver plates, whose destination was the famous Cathedral of St. Jean de Malte. There were also a large number of precious stones, designed to embellish some relics contained in the cathedral, as well as to adorn various religious objects belonging to chevaliers of the order.

## Value of Concentration.

One definition of an educated man is he who is able to concentrate his attention for sixty seconds on a common, every-day nailhead. It was the successful artist who said he mixed his paint with his brains. Success in any undertaking in life usually depends upon the mixing of brains with effort. And with concentration all things are possible to all people.

## Parrot's Rude Remark.

Ambrose Austin, an English musician, had a parrot. On one occasion the late Duke of Edinburgh, son of Queen Victoria, spoke to it. Thereupon the parrot angrily said, "You're a snob!" to the horror of its royal owner and the delight of his royal highness.

## OUR ADVERTISING TEST

We have arranged an advertising test and are going to share with you the benefits we expect to receive. We herewith present a coupon, anyone of which is good for fifty (50) cents, if presented on a purchase at our store. Sign it and bring it in; we will gain the information we are seeking and you will get a substantial discount.

Good for 50¢  
On any \$3.50  
Purchase.

## MAYNARD SHOE CO. ADVERTISING TEST.

Name.....

Address.....

This Coupon, when filled out with your name and address will be good for fifty (50) cents on any \$3.50 purchase on or before June 15, 1904.

Each year we are spending hundreds of dollars in advertising. We are thorough believers in it. You, the purchaser, naturally want to know where you can get the best value for your money, and make your expenditures go farthest. Our advertisements give you just the facts you most want to know.

Monday, Tuesday and Wednesday,--June 13th, 14th, 15th.

THIS advertisement is not tremendous in size nor filled with words of "learned length and thundering sound." A cold examination of the values is what we are looking to for results. They look good in plain type and still better when you see the goods.

## FOR THE MEN.

Stacy-Adams \$5.00, \$5.50, \$6.00  
Shoes and Oxfords, all \$5.00  
go at the popular price.

## High Tan Shoes.

They are fast sellers. No denying that TAN IS POPULAR this season. This is the only place in the city where you can buy high tan shoes. They come in Russia calf and chocolate kid.

Priced at \$3, \$3.50, \$4

## He Used His Nose.

When Marshall Jewell was minister to Russia he found out, by using his nose, the secret of making Russia leather. Instead of using tallow and grease in dressing skins, the Russians employed birch-bark tar. By inquiries and literally using his nose during a visit to one of the large tanneries, Jewell found the compound in a large kettle ready for use. He reported his discovery, and now Russia leather is made in this country.

## Hunters Destroy Fur Industry.

The wealth of Russia in furs is being rapidly sapped. It is reported that in a certain district of the Yenisei government, where fifty years ago hunters annually shot 28,000 sable, 6,000 bears, 24,000 foxes, 14,000 blue foxes, 300,000 squirrels, 5,000 wolves, and 200,000 hares, hardly a sable can be found to-day. The blame is laid to the wanton destruction of wild animals in the course of the hunting expeditions. No steps seems to have been taken to put a stop to this.

## Stanley's Faith.

Several weeks ago, before his illness assumed a fatal aspect, he was speaking of his famous expedition of 1871, when he used the words descriptive of central Africa, "illimitable day and illimitable night." One who was present asked him if he did not feel unusually impressed by the awful grandeur of the surroundings, to which he replied: "I knew there was a great power above me."

## Placed Washington First.

George Washington was the only president to receive the unanimous vote of the electoral college. At the second election of James Monroe, in 1820, there was no political opposition, but one elector from New Hampshire voted for John Quincy Adams, explaining that he did so in order that no man might share with Washington the honor of unanimous election.

## Clothing of Esquimaux.

The well-to-do Esquimaux generally own several complete suits of clothes, and present a neat appearance when not engaged in dirty work. The poorer classes wear one suit for all occasions until it becomes shabby. New clothes are seldom put on till winter. The outer frock is not often worn in the light, or hot home, being usually taken off before entering the room.

## A Japanese Excuse.

Should a Japanese lady be declined to receive a caller she generally sends her confidential maid to the door, who, bowing deeply, explains that her mistress is overcome with sorrow at not being able to see the honorable visitor, but she is at that moment engaged in having a bath!

## Lans Can Support millions.

Australia is capable of supporting at least 100,000,000 inhabitants.

## SOME GIRLS—

Talk in a way that makes them a positive bore.

Take delight in making fun of men's choice of neckties.

Are veritable tyrants in the way they command men.

Think men never should complain of financial shortage.

Insist that all men are burdened with self-satisfaction.

Feel a personal affront if contradicted in any statement.

Can work up a hysterical exhibition without much trouble.

Show more shrewdness in dealing with women than with men.

Manage to secure an influence over a man without much discussion.

Complain about everything they are called upon to do.—Philadelphia Bulletin.

## FRIENDSHIP.

Is there a friend more delightful than the friend that is twenty, or thirty, or forty years older than you?

Is there another friend that can rival the wisdom distilled from myriad experiences or the fascinating tale of varied years?

Is there another friend to whom you can give just what is craved and receive again what your own heart yearns for and needs?

Is there another friend on whose mind your desires are so clearly mirrored or in whose bosom your ideas and experiences are so cozily at home?

Is there another friend in whom you confide with the same surety that everything revealed will be buried again forever in a faithful heart's stillness?

Bigger Men Than Our Ancestors.  
"The young man of to-day has outstripped the men of past generations, in so far as physical development is considered. The change is due to the love of athletic recreation." This is the consensus of opinion among American tailors.

Varying Cries of Children.  
When a child suffers from inflammation of the lungs it moans, but rarely cries. When suffering from bronchitis the cry is gruff and rattling. When suffering from croup the cry is sharp and fretful. When hungry it is fretful and wailing.

Mosaic Map of Jerusalem.  
A map of Jerusalem in mosaic, over 1,500 years old, has been found in Palestine.
